Inchricty Among Women.

Some curious and interesting statistics on the causes of inchriety among women have just been published by a physician engaged in the reformatory prison for women in Sherborn, Mass. Over 200 cases were examined. Sixtyfice of the women were between thirty was forth years and and forty years old; forty-nine were between twenty-live and thirty-one years; thirty-four between twenty and twenty-six years; thirty below twenty; the remainder were over forty. Fiftysix wore serving a first sentence, fortyone a second, forty-five a third and
twenty-six a fourth. Seventy-three of
them were married, seventy-two were
single and twenty-two were widows.
More than inif had formed intemperate habits before they were twenty-one
years of age; twenty-seven admitted
taking intoxicants before they were
ten. As to the asseciations which taking intoxicants before they were ten. As to the associations which led to their drinking, 132 of the women claimed to have drank socially, and never otherwise; forty-seven admitted that they loved liquor; eleven gave anger or trouble as the cause; 132 began with female friends, only twenty-eight with male friends, and more than half of them began with their husbands at home. One hundred and twenty-eight began by drinking beer; thirty-seven by drinking whisky (at first as a punch); twenty began with wine, and the remainder by taking "tonics." Sixty-seven were Irish, fifty-two Irish-American, seventeen American, seventeen as the seventeen begroes. seventeen American, seven negroes, seven of mixed foreign parentage, born in America, and twenty-two were born in other countries.

DENTON COUNTY.

The Court House Fence-An Evening Paper-Local and Personal. tence of the Gazette

Denton, November 16.—Col. Tom Murray of McKinney was in the city

Denton, November 16.—Col. Tom Murray of McKinney was in the city Tuesday.

Mr. O. B. Harry of Dallas has been an town several days finishing up the erection of the iron fonce around the court house square. The fence is now complete and presents a nice appearance. With some grading on the inside to make it on a level with the stone foundation it would be greatly improved. Our city authorities are grading the street on the east side.

Mr. A. H. Clark, our agricultural machinery man, is out West for a five weeks' recreation.

We regret to note the serious illness of Mr. Dally, the proprietor of the Lochard house.

We have just learned that Mr. J. W. Holt of the Clide is confined to his bed with malarial fever.

Mr. Dallas Clark, the sheriff of our county, has returned from a trip to Austin.

Capt. F. E. Piner, who has been ab-

The Baptist church is being re-painted, and reseated and papered in-side, which will add greatly to its ap-

pearance.

The fall delivery of the Lone Star

The fall delivery of the Lone Star Nursery company, which is now being delivered, will amount to one hundred and ten thousand deliars. This enterprise is doing a great deal for Denton. There is talk of organizing a cattle company here, and also a cetton seed oil mill. The prospects for Denton were never better; there are fine residences going up all over the city and country.

DUVAL COUNTY.

Man Killed and Robbed. Correspondence of the Gazette, San Diego, November 15.—I paid a short visit to Piedras Pintas, Bena-vides and the neighborhood a few days ago, and found everything in a flour-ishing condition. The range for stock is splendid, and there will be no scar-

Our town continues to improve. Some persons have been using this new material, the gypsum, in fleu of paint, and find it a good substitute; only it takes a good deal more of the material than what the sellers of it say it does to give a good, substantial body, but even then it is more than twice as cheap as paint and nearly as good.

We heard here with great regret that a young man by the name of Carlos Rodrigues was killed and robbed near Las Padoms, about twenty miles from Las Ohnas. The young man, Don Carlos, was a fine young fellow and well liked by all who knew him.

How a Famous Georgian Was Baptized.

[Augusta News.]

Gen. Toombs was baptized and admitted to the Methodist Church roll of members at Washington, Wilkes county, by Bishop Pierce last Sanday. The discourse by the bishop was after his splendid style, and was heard by quite a large congregation. After the sermon, during the ceremonies at the reception of the new member, scarcely a dry eye could be found in the house, so great was the joy feit by the people when they knew that our grand old citizen had made peace with his God. Mr. Gabriel Toombs has long been a Christian, and the light of the pleasure of his face as he stood by his brother during the ceremonies is well worth one's memory for years to come.

readily than caives or oxen, perliaps because of the greater relative thinness of the cows' bloed.

RABO FATE OF THE SUBJECTS.

Animals that recover are zometimes infected a second time. When a cow dies it is always [Augusta News.]

Justice Case of Harrison county has been summoned to hold two separate inquests, and in both cases found the "corpse" alive.

Sullivan and Ryan.

Chicago, November 17.—Sullivan and Ryan have signed articles for a roundbout with soft gloves between January 19th and February 18, 1884, at San Francisco. The gate receipts are to be equally divided.

ance. With some grading on the inside to make it on a level with the stone foundation it would be greatly improved. Our city authorities are grading the street on the east side.

Mr. A. H. Clark, our agricultural machinery man, is out West for a five weeks' recreation.

We regret to note the serious illness of Mr. Dally, the proprietor of the Lochard house.

We have just learned that Mr. J. W. Holt of the Clide is confined to his bed with malarial fever.

Mr. Dallas Clark, the sheriff of our county, has returned from a trip to Austin.

Capt. F. E. Piner, who has been absent for the past week in attendance on the district court at Decatur, returned Friday night; also Mr. H. B. Ferguson.

Miss Sallie Johnson of Sherman has been visiting the family of Mr. S. B. Walker for the past week.

We hear it said that a club room has been visiting the family of Mr. S. B. Walker for the past week.

We hear it said that a club room has been with the sum for it. We hope the officers of the law will look into the matter, and see whether it is called by its right name.

Denion is to have a daily paper called the Evening Monitor. We wish the new enterprise much success, and hope it will be longer lived than those formerly started at this place. We see no reason why a daily should not succeed here.

Judge J. A. Carroli, president of the Exchange National bank, has gone to Austin to negotiate our county bonds. The bonds were issued to pay for new iron bridges juxt finished in this county, six in number, Mr. G. C. Ca-clieman of Henry county, Ky., has been here for some weeks looking after his landed interests.

The Baptist church is being repainted, and reseated and papered interesting the facility of the restriction of the restriction of the restriction of the restriction of the agricultural bureau, it is not the marines of the agricultural bureau, the facility of the retrieval of the restriction of the retrieval of the methods of the superinced and representation of the restriction of the retrieval of the retrieval of the retrieva

THE GOVERNMENT VIPERINARY

STATION.

The United States veterinary station is a branch of the agricultural bureau. It is on the Bennings road, a few hundred yards beyond the northeastern boundary of the city. In the center of an enclosure of ten acres is the superintendent's spacious brick residence, surrounded by stables, cattle pens, barns and other buildings, all floored with concrete, scrupulously clean and well ventilated. An average of twenty mile cowsand oxen and eight calves are subjects of continuous experiments, and while in a healthy state, before inoculation, they are driven into stables every afternoon at 5 o'clock, and fed and turned out early in the morning to graze in the pisture. They are supplied most generally with "hay," cracked corn and middling. Salt is farmished fwice a week. In securing cattle for the station only such as are perfectly healthy, in good condition, and have never been in contact with others that are diseased are selected. Thus the precise effect of the virus can be ascertained.

Poisoning the happings Creatures. Good Range and Fat Stock-A Young

POISONING THE HAPLESS CREATURES. To infect a cow it is necessary to force it into a marrow and strongly built enclosure, where the head and fect are firmly secured. Then the virus is either injected into the veins by means of a hypodermic syringe or inserted in the skin, as in a constitution for small security.

ishing condition. The range for stock is splendid, and there will be no searchly of nutritious grass this winter; the animals on the prairies are in good condition. The most of the stock are, in fact, fat. Davidson & Sterling are going ahead finely at the old stand formerly occupied by Takhas & Co. at Benavides. They have a fine assortment of goods, and are selling at low figures. Mr. E. A. Glover is also doing a fine business there, and Juan Martinez has a salcon where one naturally smiles. Martinez is such a thorough with him, you know—you really can't help it.

The train met with a slight accident night before last at Los Aguilares. The engine got out of order, and they did not get it into Laredo until nearly o'clock in the morning.

We have been having cold and of late rainy weather, but not very severe.

Our town continues to improve. Some persons have been using this new material, the gypsum in fleu of paint, and find it a good substitute only it takes a good deal more of the material than what the sellers of it say it does to give a good, substantial body, but even then it is more than twice as cheap as paint and nearly as good.

We heard here with great regret that a young man by the name of Carand flesh of the animals. The virus of the other diseases causes infected cattle in like manner to waste away. The virus of long fever operates more rapidly than that of the other two diseases now receiving most attention at the hands of these experts and its effects are found to be much more fatal. To either of the three diseases milk government, much more diseases milk government.

eases milch cows soccumb much more readily than calves or oxen, perhaps because of the greater relative thinness of the cows' blood.

Animals that recover are sometimes infected a second time. When a cow dies it is always carefully dissected and internal organs showing the effects of disease taken out and preserved for further examination. The lungs are more commonly affected than any other organ, and often found to be hard and greatly swellen and to have a reddish, unnatural color.

IBS'T OF PUTIFUL?

The lungs of many cows dying of lung fever were found to be partially decayed on the out r edges
